

Is for safe

Always be safe on online games and other online web pages!

Never share your personal information to someone online it can put you in danger.

Is for meeting

Never meet anyone online without your parent/guardians permission it could result in you being in danger. Always tell someone if you're meeting someone online

Is for accepting.

Never accept or open any emails, messages, pictures or files from people you don't know. Someone could send you something with a virus on it which would lead to breaking your computer , phone , tablet or any other gadget that you are receiving it on. So make sure to stay safe when opening emails, messages, pictures and files!

is for reliable

Reliable means to only use a source you can trust to retrieve info. Don't trust anything you see online. Especially something that sounds incredible, like a UFO sighting. Always ask an adult if you see anything strange.

Is for tell

Tell a trusted adult or friend if you see something suspicious online someone maybe tricking you about they're identity. You should especially tell someone if it starts to make you feel uncomfortable or unsafe because if you don't it could end in harm.
